Attention: Mr. John Davies - Commercial Section President
Mr. Tony Lum - Commercial Section Vice President

Since you have both now assumed the positions of President of the Strata Council and Vice President of the Strata Council, *also*, I would hope that the same persons Mr. Morgan spoke with, mentioned in (his) latest minutes, are *still* equally *DISGUSTED, SHOCKED & APPALLED!* In my opinion, one of our resident owners, Mr. Francois Gamache, enabled you to acquire our resident owners mailing list for which I am deeply disappointed. By sending out inaccurate and confusing statements to residential owners you have only added to the burden that rests on *ALL* our shoulders. You may be bright and financially secure business men but, in my opinion, what you are trying to prove is anyone's guess. Did those residential owners, that I've heard are supporting your efforts, approve your letter announcing your Strata Council Presidency while taking another *kick* at Facilitech? What benefit will come from that since most owners on both sides have no idea who you are and what your purpose is in the scheme of things. The question is could your dual presidency and vice presidency be considered a conflict of interest? Should *YOU* be responsible to alert all owners in the commercial section of your possible conflict of interest? In my opinion, the police investigating themselves...is a fair example of a conflict of interest.

Final two questions, why is your announcement (letter), Mr. Davies, missing from the latest posted minutes on the Commercial website and why was Mr. Lum's name and newly assumed status missing from that letter?

Sincerely,

Mrs. Marlene Sikorra,
Owner Residential Strata Lot #38
